

Attention KC Region Plant Managers!

Water Treatment Plant – Training Location

WWTP

The Missouri Water Environment Association Plant Manager's Committee and Young Professionals
Present:

A Plant Tour of the

Liberty MO WWTF

Friday, September 8, 2017 10:30 AM

There will be a presentation at the water plant followed by lunch at Noon Followed by a tour of the aerobic digestion facility and the plant.

Bring someone with you. This is a networking opportunity.

This presentation will focus on MTAD Process (Membrane Thickening Aerobic Digestion).

Directions to the Liberty Water Plant for Training:

Take M291 south out of Liberty, MO to Ruth Ewing Rd; turn west. Turn south at Birmingham Road. Continue south to the plant entrance at Arsenal Road and left at Riverview Road. Turn right into the plant. (see map attached).

Description:

The City of Liberty Wastewater Treatment Plant is an activated sludge treatment plant with a lift station, screening, two activated sludge treatment trains with biological phosphorous and nitrogen reduction, secondary clarifiers, UV disinfection, sludge aerobic digesters, with land application of sludge.

The presentation will include experiences of startup of Liberty Solids Handling processes. The discussion will include startup and lessons learned of the plant's MTAD Process (Membrane Thickening Aerobic Digestion) and Dewatering system startup and dewatering polymer selection process.

RSVP to 816-853-2910 or to mark.pearson@skw-inc.com so we can get a headcount!

This training comes with Operator Certification Renewal Credits for Wastewater:

MoDNR Course No. 1701768 MWEA Plant Managers: MTAD Digestion, Liberty, MO 07/14/17 Renewal Training Hours WW=1.0
