Attention Plant Managers!

The Missouri Water Environment Association Plant Manager's and Young Professionals Committees Present:

A Networking Lunch and Plant Tour of the

Saline Creek WWTF

555 13th Street, Fenton, MO 63026 (636) 717-6523 ext. 14

Thursday, May 18, 2023 11:30am

Lunch will be at The Post Sports Bar & Grill – Fenton. Their address is 568 Old Smizer Mill Road, Fenton, MO 63026. It's about 3 miles away from the plant site. Lunch will be paid for individually.

At 1 pm we will start the plant tour at 555 13th Street in Fenton, Mo.

Please consider bringing someone with you. This is a networking opportunity.

Directions to the WWTP:

The plant is 0.4 miles west of 141 on 13th Street.

Description:

Influent course bar screen / influent pump station / influent screening removal and compactor / grit removal / peak flow holding basin (10 MG) / multiple channel (3) oxidation ditch / secondary clarifiers (three) / UV disinfection / effluent cascade aerator / membrane sludge thickening / aerobic sludge digester / sludge holding basins (two) / sludge is hauled and land applied by contract hauler

Design flow is 5.25 million gallons per day.

Actual flow is 2.5 million gallons per day.

RSVP (call or text) to 573-469-1561 or to gary.davis@bartwest.com so we can get a headcount!
